Carolynne and Pam, with Soul Elegance Catering, exceeded all our expectations throughout our experience with them concerning catering our daughter's wedding. They were very helpful in the planning stages for over 400 people. We had many specific food requests that they worked in wonderfully and prepared them all. The quality and taste were excellent. The service staff that they supplied was friendly, professional, and looked marvelous. The serving lines, for over 400, flowed smoothly and there was more than enough food for everyone.

Everything was ready to be served on time and was delicious. The total presentation was exquisite, as they supplied all the serving pieces and serving table lines. The buffet lines were also beautifully decorated by them with flowers and accents they brought combined with some accent items we wanted to include. Everyone seemed to enjoy themselves including the bride and groom. It was truly a celebration and Soul Elegance did an excellent job to make that happen.

The overall experience with Soul Elegance Catering was wonderful and contributed greatly to making the wedding day all we dreamed it would be.
